

Resilient Control & Instrumentation Systems (ReCIS), in collaboration with the Institute of Electrical & Electronics Engineers (IEEE) and the International Society of Automation (ISA), would like to invite anyone interested to "Brew with the Crew," an after-work event that will take place every third Thursday of the month, 4:00-5:00 via Microsoft Teams (click [HERE](#) to join or dial 208.901.7635 #378818148 to call in). The purpose of the meetings is to allow opportunity for instrumentation, control and intelligent systems researchers and practitioners to interact with others in their community, both inside and outside of INL. In this informal forum, people are not required to provide a documented presentation, but instead to share the nature of their research and interests and to possibly include some interesting stories along the way.

March 18	Steve Reese	<i>Water Security Test Bed</i>
April 15	Rob Beason	<i>Consumer Reports of Cybersecurity Products and Vendors</i>
May 20	Jim Smith	<i>Material State Measurements for Process State Awareness</i>
June 17	Ahmad Al Rashdan	<i>Applications of Artificial Intelligence in Automating Current Nuclear Operations and Work Processes</i>
July 15	Vivek Agarwal	<i>Autonomous Operation of Nuclear Reactors</i>
August 19	Porter Hill	<i>Department of Defense Resilience</i>
September 16	Lionel Toba	<i>Supply Chain Resilience</i>
October 21	Lydia Greco	<i>Cyber Resilience</i>
November 18	Colter Green / Kelly Wilson	<i>Idaho Infrastructure Playbook</i>
